RE: C. Mercier – Request City Manager place Madonna Circle on the list of streets needed to be addressed due to truck turnaround traffic caused by the company repairing the Broadway Street bridge

The City Engineering Department has reviewed the condition of Madonna Circle and will consider adding Madonna Circle to the 2021 or 2022 paving list. Roadway improvements along adjacent streets, including Broadway, will be recommended for rehabilitation at this same time. This recommended timeline takes the completion of the Tiger Bridge Replacement Project into consideration since Broadway is currently being utilized as a detour route for the Tiger Bridge Replacement Project. DPW will provide temporary repairs on any potholes that appear in the interim.

Thank you

CC: Ralph Snow, DPW Commissioner
