### **Zoning Code Sections Referencing Variances Issued by the Board of Appeals**

**11.2.3 Variance Prerequisites.** If the application for a variance does not conflict with the foregoing prohibition, variances can only be granted by the Board of Appeals if it finds that owing to circumstances relating to soil conditions, shape or topography of land and especially affecting such land but not affecting generally the zoning district in which the land is located and a literal enforcement of the provisions of the zoning Ordinance would involve substantial hardship to the petitioner or appellant and relief can be granted without substantial detriment to the public good and without nullifying or derogation from the intent and purpose of this zoning Ordinance.

1. The Board of Appeals must find all these prerequisites before it can consider granting a variance. A failure to establish any one (1) of them is fatal.
2. The Board of Appeals is authorized to grant a variance from zoning ordinances only if each of the following jurisdictional conditions precedent exist:
  - A. Special hardship: "owing to circumstances relating to the soil conditions shape or topography of such land or structures and especially affecting such land or structures but not affecting generally the zoning district"
  - B. Public good: "desirable relief may be granted without substantial detriment to the public good"
  - C. Intent of zoning satisfied: "without nullifying or substantially derogating from the intent of zoning"

### **11.2.4 Applicants must submit a plan containing the following data:**

(Applicants applying also for site plan review need to meet the application standards for site plan review)

- a. It shall be drawn at a scale of one (1) inch equals twenty (20) feet unless another scale is requested and found suitable by the Board;
  - b. The plan shall be prepared by a registered land surveyor, professional engineer or architect;
  - c. The scale, date and north arrow shall be shown;
  - d. The plan shall be certified by the land surveyor doing the boundary survey and the professional engineer or architect on the location of the building(s) setbacks, and other required dimensions, elevations, and measurements and further that the plan be signed under the penalties of perjury;
  - e. The corner points of the lot\* and the change of direction of lines to be marked by stone monuments, cut in stone, stake and nail, iron pin, or other marker, and shall be so marked;
  - f. Lot\* number, dimensions of lot\* in feet, size of lot in square feet, and width of abutting streets and ways;
  - g. Easements within the lot\* and abutting thereon;
  - h. The location of existing and proposed building(s) on the lot;
  - i. The dimensions of the existing and proposed building(s) in feet;
  - j. The distance in feet of existing and proposed building(s) from the lot lines;
  - k. The distance between buildings on the same lot;
  - l. The percent of the lot\* area covered by the building(s);
  - m. The average finished grade at each building;
  - n. The elevation above average finished grade of the floor and ceiling of the lowest floor of each building;
  - o. Topographical lines at one-foot intervals;
  - p. The use of designation of each building or part thereof, and of each section of open ground, plaza, or useable roof space;
  - q. Quantities and locations of existing and proposed parking spaces;
  - r. Height of each building above average finished grade;
  - s. Number of apartments, hotel rooms, meeting rooms, and restaurant and theater seats;
  - t. Total square feet of floor space for each use;
  - u. Dimensions and size in square feet of all landscape and recreation areas, and depiction of materials to be used (grass, five-foot shrubs, etc.).
- \* Refers also to series of contiguous lots under single ownership.
