

Board Of Health

School Health Unit Sept 2019

- Staff in all 29 Lowell Public Schools were Epipen trained
- SHU worked in conjunction with Family Resource Center to get Immunization review underway in order to get new students in compliance and in school.
- Crisis Go was rolled out in all the Lowell Public Schools and all the Nurses & Management Team participated in this training
- The School Health Unit was notified that we were the recipients of a Grant through the Greater Lowell Health Alliance that will allow for the purchase of a SPOT vision machine which will allow us to quickly & easily test students 5 & under. This will make a significant impact as it will provide screening to some children who would be otherwise untestable. Results are instant, accurate, and produce a print out for the parent to bring to the Physician.
