RE: Status Summary of Lowell High School Indoor Air Quality Reassessment Reports

*BoH
1/8/2020
HANDOUT*

The City has received the indoor air quality assessment reports dated December 2019 for the Lowell High School 1922 and 1980 buildings. These indoor air quality assessments were conducted as a follow up to an assessment completed in 2017.

As having just started as the DPW Commissioner of Public Works on January 4, 2020, I am prioritizing the review of these documents. The DPW will be conducting a walkthrough of the two buildings this week to review the report results and recommendations. DPW and the Schools Department will then meet to develop an action plan and response to these reports. A more detailed response to these reports will be provided at the next Board of Health Meeting

Thank you

Cc: Jim Hall, School Department
Kara Keefe Mullin, Assistant City Manager
JoAnn Keegan, Interim Director, Health and Human Services
