Massachusetts High School Graduation Guidelines to help prevent the spread of COVID-19

May 19, 2020

High School graduations are an important ceremony in the lives of the graduate and their loved ones. High School graduation ceremonies should proceed with the following schedule and guidelines:

- Ceremonies held between now and July 18th should be held virtually or in extremely limited other circumstances following safety protocols (e.g., car parades).
- Ceremonies held beginning July 19th may take place OUTSIDE under the following standards **and** assuming the public health data supports the continued opening of our state.

General Standards

These standards are minimum requirements only and are not exclusive or exhaustive. The public health data and principles for disease prevention upon which these guidelines are based can and does change frequently. It is imperative that all local, state and federal requirements are adhered to in planning a high school graduation ceremony.

Any graduation ceremony held outside must be in an unconfined outdoor space that can accommodate social distancing and the flow of air. Tents or other enclosed spaces are not permitted.

Schools must communicate in writing to any graduate, their family, school personnel and others who may attend that if they are feeling sick, are exhibiting any of the following symptoms (fever, cough, shortness of breath, chills, muscle pain, headache, sore throat, or new loss of taste or smell), or have potentially been exposed to someone with confirmed or suspected COVID-19, they should not attend the graduation ceremony. A potential exposure means having household contact or having close contact (within 6 feet) with an individual with confirmed or suspected COVID-19 for a prolonged period of time (over 15 minutes) while the person is symptomatic or 48 hours before symptoms developed.

Persons who are particularly vulnerable to COVID-19 according to the Centers for Disease Control (e.g., due to age or underlying conditions) should be discouraged from attending the graduation ceremony.

The outdoor space must have sufficient space to accommodate attendees who are not from the same immediate household spaced at least six feet apart.

Attendance

- Attendance must be limited to Graduates and their immediate family members only. Families must sign up in advance of the graduation and only those who have pre-registered may attend. Children under the age of 5, older adults and those with vulnerable health conditions should be discouraged from attending.
- Staff or attendants must monitor the number of attendees entering the graduation ceremony and confirm that they had pre-registered.

Social Distancing

Seating

- Attendees who are not part of the same immediate household must be seated at least 6 feet apart. Members of the same immediate household are permitted to sit together and less than 6 feet apart.
- If there is fixed seating, rows should be blocked off and kept empty to allow for sufficient distancing between rows.
- Graduates must be seated 6 feet apart.

Entering and Exiting

- Every effort must be made to encourage the orderly arrival and exiting of individuals attending the graduation in a manner that encourages social distancing.
- Graduates must enter and exit 6 feet apart from one another in a single line.
- Social distancing measures include:
 - Signage or pavement/ground markings should be posted to have one-way aisles or otherwise direct attendees to follow certain pathways for arriving to entering and exiting from the graduation service.

- If a line forms outside of the graduation, those waiting should be directed to maintain social distancing. Tape, chalk or other markings should be laid on the ground outside of the venue in order to maintain social distancing of at least 6 feet.
- Staff should direct people help maintain social distancing.
- Staff should direct successive, row-by-row exiting.

Face Coverings

- All attendees must wear face coverings before, during and after the ceremony. The only exceptions are when a person is unable to wear a face covering or mask because of a medical or other disabling condition. Speakers may remove masks during their remarks.
- For children between age 2 and 5, the wearing of a face covering or mask is at the discretion of the child's parent or guardian. Children under the age of 2 should not wear a face covering or mask. Children under the age of 5 are discouraged from attending the graduation ceremony.
- Any person who refuses to wear a face covering or mask without a valid justification may be denied entry.

Ceremony: Pre, During and Post

- The venue must be cleaned prior to the service, including heavy transit areas and high touch surfaces (e.g. bathrooms, microphones).
- There can be no communal/reception either before or after the graduation.
- No food or drink is allowed.
- The venue must have sufficient access to alcohol-based hand sanitizers with at least 60% alcohol available at all entrances/exits.
- On the dais/platform, all faculty and distinguished guests should be limited and must be seated 6 feet apart.
- Graduates may be invited to walk across the stage individually and turn their tassel in lieu of receiving the diploma. Alternatively, diplomas and awards could be distributed if bestowing the awards/diplomas is done cautiously (e.g. placing each diploma and/or award on a table as the graduate walks by to retrieve it).
- No hugging or hand shaking should occur.

- Ceremonies should be kept as brief and short as possible.
- Individuals must promptly depart the premises in an orderly fashion after the ceremony is over following the directions of school officials.

Dear LBH (or Municipal Official),

DESE sent out the attached graduation guidance to school admins today. Pasted below is also some additional info about the gathering order from the Governor's legal office...

"We write to clarify the continuing effect of the part of the Governor's Emergency Order No. 13 that limits gatherings to ten or fewer persons. That Order has always included the following exception to that limitation: "This Order does not prohibit gatherings of more than 10 people in an unenclosed, outdoor space such as a park, athletic field, or parking lot." Thus, Emergency Order No. 13 DOES NOT limit gatherings in an unenclosed, outdoor space to ten people. Guidance by the Department of Public Health advises that social distancing should be practiced at all times, and people are required to wear a face covering if they cannot maintain at least six feet of space between themselves and others.

For instance, a political demonstration in a public square is not limited to 10 people, but the demonstrators must wear a mask if they do not stay at least six feet apart.

The full provision of Order No. 13 as it concerns gatherings is pasted below.

"3. Limitations on Gatherings

Gatherings of more than 10 people are prohibited throughout the Commonwealth. Gatherings subject to this Order include, without limitation, community, civic, public, leisure, faith-based, or sporting events, concerts, conferences, conventions, fundraisers, parades, fairs, festivals, weddings, funerals, and any similar event or activity that brings together more than 10 persons in any confined indoor or outdoor space. This limitation shall not apply to the operations or activities of any business or organization in its provision or delivery of COVID-19 Essential Services.

This Order does not prohibit gatherings of more than 10 people in an unenclosed, outdoor space such as a park, athletic field, or parking lot.

Athletic and recreational activities that bring participants into close, physical contact are prohibited even when involving 10 or fewer people and regardless of where conducted."
