To: Lowell Board of Health

From: Don Murphy, Health inspector

Re: Tierneys Tattoo

March 26, 2018

Mr. Tierney for about 3 months has been working part-time on another workstation for his apprentices use in anticipation of her licensing; according to Mr. Tierney he had spoken with Commissioner Shanahan about the work, since he was just adding a wall and door to an existing room, he was told to go ahead and start it. In my recent inspection a sink had been installed and 2 GFI outlets were installed into existing outlets as needed to comply with BOH regulations for a work area, I instructed him that his electrician and plumber need to get permits for the work they performed. Once the work is completed to everyone's satisfaction I will approve it. Any questions feel free to contact me,

Sincerely,

Don Murphy Health Inspector

Proposal*

ORIGINAL FLOOR PLAN

■ = SINK

PROPOSAL: Room modification

- ① Turn Extra Space into another tattoo office by adding one wall with prehung door
- ② Add hand washing sink into pre existing plumbing by means of a pipe chase that will join the existing pipes Above drop ceiling & Drump to drain system. 1/29/18
