This notice is required by the Rules of the Federal Communications Commission. Comcast Digital Voice service (CDV) may have the 911/E911 limitations listed below. I understand and agree to the following: In order for my 911 to be properly directed to emergency services, Comcast must have my correct service address. If I move CDV to a different address without Comcast's approval, 911 calls may be directed to the wrong emergency authority, may transmit the wrong address, and/or CDV (including 911) may fail altogether. CDV uses the electrical power in my home. If there is an electrical power outage, 911 calling may be interrupted if the battery back-up in the associated multimedia terminal adapter is not installed, fails or is exhausted after several hours. Calls, including calls to 911, may not be completed if there is a problem with the network facilities, including network congestion, network/equipment/power failure, or another technical problem. Prior to changing my address, or if I have any 911-related questions, I will call 1-800-Comcast. Comcast will need several business days to update my service address in the E911 system. USE OF CDV AFTER DELIVERY OF THIS DOCUMENT CONSTITUTES YOUR ACKNOWLEDGEMENT OF THE E911 NOTICE ABOVE. By signing below, I represent that I am at least 18 years old; I am the owner of, or tenant in, the premises at the above address and that the installation, repair or other work provided has been satisfactorily completed. If this work order relates to the initial installation of services, I acknowledge receipt of the Comcast Welcome Kit which contains the Comcast Residential Customer Agreement, the Comcast Cable Subscriber Policy Notice and other important information about the services. I agree to be bound by the Comcast Customer Agreement which constitutes the agreement between Comcast and me for the services as well as any applicable Comcast acceptable use policies. If other non-installation work was provided, I agree to be bound by the current Comcast Customer Agreement as well as any applicable Comcast acceptable use policies. I authorize Comcast to obtain a credit report from a consumer credit agency in connection with the provision of the services I am receiving. IF I SUBSCRIBE TO COMCAST DIGITAL VOICE, I ACKNOWLEDGE MY RECEIPT AND UNDERSTANDING OF THE E911 NOTICE ABOVE.

MOVING

Before you move, please call us at 1-800-XFINITY. This is the best way for us to arrange for your service to be disconnected and to schedule an installation at your new home, if your new home is in our service area.

EQUIPMENT COMPATIBILITY

Xfinity TV service is encrypted and requires a TV Box, TV Adapter, CableCARD or other navigation device that is compatible with our system for each television you wish to use with our service. You may not be able to use special features or functions of your television, VCR or DVD player/recorder with Xfinity TV service. Some of these problems may be resolved by the use of signal splitters, and/or other supplemental equipment that can be purchased from us or at electronic stores. Please call us if you would like to discuss the type of special equipment needed to resolve individual compatibility problems or if you have any questions regarding other equipment compatibility issues.

If you have a TiVo digital cable-ready DVR, you can access switched digital video services by obtaining a "tuning adapter" device. If you have a TiVo DVR or other digital cable-ready devices, you will need a TV Box, TV Adapter, or CableCARD from us to access switched digital video and other two-way cable services. Upon your request, we will provide you with the technical parameters necessary for a navigation device rented or acquired from retail outlets to operate with our system. Because of the need to protect our Xfinity TV service, we will not authorize the use of a navigation device that does not conform to all required signal security specifications. For information regarding other navigation devices, please go to <https://www.xfinity.com/support>.

REMOTE CONTROL UNITS

If you rent a TV Box or TV Adapter from us we will provide a compatible remote control. Also, you may purchase compatible remotes at local electronic stores or other retail outlets. A representative list of compatible remote control models currently available from local retailers includes: Philips PHL PMDVR8, RCA RCR612, and Sony RM-V202. A list of additional compatible remotes may be obtained from your local Xfinity store. Although these remote control units are compatible with the TV Box or TV Adapter that we currently offer, these remotes may not be functional if we change the type of TV Box or TV Adapter we rent. If you have any questions regarding whether a particular remote control unit would be compatible with our equipment, please contact us.

COMPATIBILIDAD ENTRE EQUIPOS

El servicio Xfinity TV está cifrado y requiere, por cada televisor con el que desee usar el servicio, un decodificador de TV, un adaptador de TV, una tarjeta CableCARD u otro dispositivo de navegación que sea compatible con nuestro sistema. Posiblemente no pueda utilizar funciones o características especiales de su televisor, su videgrabadora o su reproductor/grabador de DVD junto con el servicio Xfinity TV. Algunos de estos problemas se pueden resolver mediante el uso de divisores de señal y/u otros equipos complementarios que se pueden comprar en nuestra empresa o en tiendas de electrónica. Llámenos si quiere discutir qué tipo de equipos especiales necesitaría para resolver problemas de compatibilidad específicos o si tiene preguntas acerca de otros problemas de compatibilidad entre equipos.

Si tiene una videgrabadora digital TiVo apta para televisión por cable, puede acceder a servicios de video digital conmutados mediante un "adaptador de sintonización". Si tiene una videgrabadora digital TiVo u otros dispositivos digitales aptos para televisión por cable, necesitará que le proveamos un decodificador de TV, un adaptador de TV o una tarjeta CableCARD para acceder al servicio de video digital conmutado y a otros servicios bidireccionales por cable. Si lo solicita, le proporcionaremos los parámetros técnicos necesarios para un dispositivo de navegación que alquile o compre en nuestros puntos de venta minorista para usar con nuestro sistema. Debido a la necesidad de proteger nuestro servicio Xfinity TV, no autorizaremos el uso de dispositivos de navegación que no cumplan con todas las especificaciones necesarias para la seguridad de la señal. Para obtener información sobre otros dispositivos de navegación, visite <https://www.xfinity.com/support>.

UNIDADES DE CONTROL REMOTO

Si usted alquila uno de nuestros decodificadores o adaptadores de TV, le proveeremos un control remoto compatible. También puede comprar un control remoto compatible en una tienda electrónica local u otro punto de venta minorista. La siguiente es una lista representativa de los modelos de control remoto disponibles en tiendas minoristas locales: Philips PHL PMDVR8, RCA RCR612, y Sony RM-V202. En su tienda Xfinity local podrá obtener una lista de otros controles remotos compatibles. Aunque estas unidades de control remoto son compatibles con el decodificador y el adaptador de TV que ofrecemos actualmente, es posible que no funcionen si cambiamos el tipo de decodificador o adaptador de TV que le alquilamos. Si tiene dudas acerca de si una determinada unidad de control remoto sería compatible con nuestros equipos, póngase en contacto con nosotros.

Comcast knows our customers care about how Comcast uses, maintains, and shares the information we collect about them, and the choices they have regarding that use and sharing. Comcast holds customer privacy in the highest regard, and we are committed to protecting your privacy as we describe in this Privacy Notice. We value the trust you place in us as a customer when you subscribe to one or more of the Services described below.

This Comcast Customer Privacy Notice (the "Privacy Notice" or "Notice") describes: (1) the types of information Comcast collects when you subscribe to, use, and/or access our Services; (2) how we use, share, and protect that information; (3) how long we retain that information; and (4) the legal limitations imposed on our collection, use, and sharing of information that personally identifies you.

This Notice also provides you with information about how to access, review, and correct information that personally identifies you, how to set privacy preferences and opt out of certain uses and sharing of information, and your rights under federal law and this Notice concerning your personally identifiable information.

Entities Covered

In this Notice, the terms "Comcast," "we," "us," or "our" refer to the operating company, subsidiary, or affiliate of Comcast Cable Communications, LLC that (1) owns and/or operates the cable television system in your area, and (2) delivers one or more of the Services. The term "you" refers to you as a subscriber to one or more of the Services.

Services Covered

This Privacy Notice applies to the Comcast-provided Xfinity® cable video ("video"), Internet, and voice services delivered over our cable system (including the services provided when you use the Xfinity Stream app and tv.xfinity.com to access Xfinity video as a cable service in your residence and when you subscribe to Internet service and use the Xfinity Wi-Fi service). This Privacy Notice also applies to Comcast-provided home security service. Collectively, these are referred to as the "Services" throughout this Privacy Notice.

This Notice does not apply to other Comcast services or offerings, such as Xfinity Mobile, or other Comcast® and Xfinity-branded websites, applications, or streaming services, except as described above. These services, websites, and applications have their own privacy policies, which we post at <https://www.xfinity.com/mobile/policies/privacy-policy> and <http://my.xfinity.com/privacy/>.

Information Covered

This Privacy Notice also does not apply to (1) information that may be collected through any other products, services, websites, or applications, even if you access those other products, services, websites, or applications through our Services and even if they are co-branded with Comcast brands or the brands or logos of our affiliated companies; (2) information collected by devices, such as a "smart TV," or through a third-party (non-Xfinity) mobile application, where the manufacturer or application owner has enabled information-gathering capabilities including automatic content recognition that we do not control; or (3) interactions with third-party content providers that you may access through the Services, such as online video providers you may reach through our set-top boxes. You should read the privacy policies for these other products, services, websites, and applications to understand whether and how they apply to you and the data they collect about you.

Please read this entire Privacy Notice to understand our privacy policies and practices. You can also find answers to your specific questions quickly by using the links below.

I. Collection of Information

This section describes the types of information Comcast collects when you subscribe to, use, and/or access one or more of the Services. Some of our Services permit you to establish secondary accounts, and if you do so we collect similar information in order to establish and maintain those accounts. When you allow others to use or access the Services through your account, we collect information about their use, as well.

Information You Provide to Us

We collect information that you provide to us when you create an account with us or when you call us, use online account tools (for example, when you access My Account or chat online with an agent), report service issues, complete customer surveys, enter contests and promotions, or otherwise communicate with us. This information includes:

- name and contact information (for example, billing address, service address, email address, and phone numbers);
- payment information, such as your payment card or bank account information;
- information related to a credit application for the Services, which may include your Social Security number, driver's license number, or other government issued identifiers;
- information you provide to authenticate your access to the Services, such as passwords, images, voice recordings, or other personal identifiers;
- information you provide when you establish custom settings or preferences; and
- customer correspondence and other communications records, including records of calls and chats with our customer service representatives.

Information We Collect When You Use the Services

We also collect information about your account and your use of the Services, which may include:

- your account number;
- billing, payment, and deposit history;
- maintenance information;
- the types of Services to which you subscribe;
- the device identifiers and network addresses of equipment used with your account;
- voice commands;
- video and audio recordings;
- records indicating the number and types of devices connected to our network;
- technical information about your Service-related devices, including customization settings and preferences;
- network traffic data;
- information about your use of the Services and their features, including video activity data, as well as Internet or online information such as web addresses and other activity data in order to render Internet service; and
- additional information about the Service options you have chosen.

When you use the Services, our cable system automatically generates, transmits, and collects much of this information as part of providing the Services to you. For example, we receive information about the use of set-top boxes, remote controls, program guides, video players, applications, and other devices and software connected to our cable system ("video activity data"). The video activity data includes, for example, which channels, programs, and advertisements are viewed and for how long. It may also include information about navigation through program guides and applications, and use of devices like remote controls and tablets. If you select various features of our equipment, such as voice commands or search, we also will collect and process the data needed to fulfill your requests.

Location Information

We may collect information from the devices you use to access the Services that tells us where you are at a specific point in time. For instance, we may know that you are at home when you chat with us through your Xfinity Internet service.

Information Provided by Third Parties

We also obtain data and information about you from third parties. For example, when you request new or additional Services or features from us, we may obtain credit information from credit reporting agencies. Additionally, if you rent your residence, we may have a record of whether landlord permission was required prior to installing our cable services as well as your landlord's name and address.

We may obtain additional information about you from third parties such as demographic data (for example, gender, age, and census records, etc.), location data (for example, designated market area, zip code, etc.), interest data (for example, sports, travel, and other recreational activities, shopping preferences, etc.), or purchase data (for example, public records, loyalty programs, etc.). We may combine the data we collect from third parties with information in our business records, including information about your use of the Services. We may also combine information about your use of the Services with information we obtain from your use of other products, services, websites, and applications from Comcast. We use this combined data as described in the "Use of Information" section below.

II. Use of Information

We use the information we collect to provide and improve the Services and our network, to communicate with you, to deliver relevant advertising, to create measurement and analytics reports, and to provide additional features and offerings. Sometimes we use information that personally identifies you, such as when we are authenticating your account or communicating with you. We also maintain and use information in de-identified or aggregated forms that do not identify you.

To Provide and Improve the Services

We use the information we collect to conduct business activities related to providing you with the Services, including:

- establishing your account
- measuring credit and payment risk;
- billing and invoicing;
- authenticating access to your account;
- account administration;
- service delivery;
- maintenance and operations, including management of the network and devices supporting our service and our systems;
- technical support;
- hardware and software upgrades for devices and systems;
- understanding the use of our services;
- improving our services and identifying and developing new products and new services;
- marketing and advertising;

- detecting the unauthorized reception, use, or abuse of the Services and to protect our customers from fraudulent, abusive, or unlawful use of, or subscription to, the Services;
- collecting fees and charges;
- protecting our rights, our personnel, and our property; and
- complying with applicable law.

We also use the information we collect to measure and analyze how our customers are using the Services. For video, this includes assessing which programs are most popular, how many people watch a program to its conclusion, whether people are watching advertisements, and what programming and video content we will carry on the Services. It also includes determining how our customers prefer to view certain kinds of programming when they use our video service, such as whether they like to watch certain programs live, or if they prefer to view them on demand, on mobile devices, or online.

When we provide you access to third-party content providers through our set-top boxes, we may measure how often and how long you use such services, but your use of those third-party providers are controlled by the terms and privacy policies of those providers. For Internet and voice services, we similarly analyze customer usage data, such as the amount of bandwidth that is being used, the peak times of usage, or the types of services that are being used.

To Communicate with You

We also use the information we collect to deliver and personalize our communications with you. For example, we may use the contact information you provide to inform you of Service updates or the status of a service request or outages, to invite you to participate in a survey, to collect amounts you owe, or in connection with other activities related to the Service. We will provide you with service-related announcements, such as a pricing change, a change in operating policies, a service appointment, or new features of one or more of the Services you receive from us through emails, texts, calls, Comcast-provided equipment, and other communications methods. You may select the manner in which you prefer to receive many of these communications by visiting the customer preference center at <https://customer.xfinity.com/#/users/me/notifications>.

To Provide Recommendations and Deliver Relevant Advertising and Marketing

We may also use information about you and/or your use of the Services or other services we provide to determine which movies or television shows to recommend to you and to send you promotional communications for the Services and other products and services we think may be of interest to you. We may also use this information to help third-party advertisers and programmers deliver more relevant advertising.

These promotional communications and advertisements may be directed to you because you subscribe to one or more of the Services, because of the way you use the Services, because you live in a certain geographic area, or based on demographic and interest information that we collect or obtain from other companies. These communications may be subject to your consent, as described in Section IV of this Notice ("Your Choices"). In no event will Comcast give your name or other personally identifying information to an advertiser without your consent.

To Create Analytics and Measurement Reports

We and service providers who work on our behalf may use and combine data from our business records – including account information, video activity data, and other usage data – with data from third parties to create measurement and analytics reports. These reports do not contain any information that personally identifies you and instead contain de-identified or aggregate information.

We use these reports for many of the purposes described above, such as for improving the Services, creating and delivering more relevant advertising on behalf of Comcast and other third parties, determining whether and how an advertiser's messages are viewed, and analyzing the effectiveness of certain advertisements on the Comcast platforms and services and other platforms and services. We also use these reports to work with academic or research groups, and for other uses that help us develop and fund improvements in services and infrastructure. We may share these reports with programmers, advertisers, or others. To learn about the choices you have with respect to our use of your information for these purposes, see Section IV of this Notice ("Your Choices").

III. Sharing & Disclosures of Information

We limit the information we share and disclose to others as described below.

Service Providers

In order to provide and support the Services, sometimes we use third-party companies as service providers that work on our behalf to transmit, collect, process, or store information for us. We require these service providers to treat the information we share with them as confidential and to use it only for the purpose of providing the services for which they have been engaged. These engagements typically include services such as billing and collections, administration, auditing and accounting, professional advice and consulting, surveys, marketing, service delivery and customization, maintenance and operations, security incident verification and response, service notifications, fraud prevention, and services to improve our programming and advertising offerings. For example, Comcast uses service providers to process payments for us and we may share your payment information with those billing processors when you make a payment. Or, Comcast may use a service provider to obtain information about you to assess your credit and payment status.

The Comcast Family of Businesses

Comcast may share the information it collects with its affiliates that offer other Xfinity and Comcast-branded products, services, and applications. For example, if you use your Xfinity Service account information to create an Xfinity Mobile Service account, we may share your Service account information with the Comcast company that offers that service. We do this so that these companies can provide services to you and to make it easier for you to use Xfinity Mobile Service and other Xfinity services. We may also share information about you with other Comcast companies (including NBCUniversal-branded companies and other non-Comcast or non-Xfinity-branded affiliates) for marketing and advertising purposes when we have any required consent to do so.

Account Owners and Users

Comcast may disclose any information about a customer's account and use of the Services and their features to the primary account owner after appropriate authentication. The primary account owner may also authorize other users to access information on the account, and that may include data about you and your use of the Services.

Third Parties for Marketing Purposes

We will not share, sell, license, rent, or otherwise permit access to information that personally identifies you to an unaffiliated third party for that third party to market its products or services to you, unless we have the required consent to do so. Unless we have your affirmative "opt-in" consent, we will not sell or share any of your personally identifiable web browsing information, video activity data, sensitive information (such as financial account information or Social Security number), or call detail records that we collect from our cable system. We may, however, share de-identified or aggregate information with third parties for their own uses when those third parties commit to not re-identify that information or share it with others who may attempt to do so.

As permitted by federal law, we may disclose your name and address to non-governmental entities, such as charities or businesses, so long as such disclosure does not reveal, directly or indirectly, the extent of your use of the Services or the nature of any transaction you make over our cable system. You have the right to prohibit or limit this kind of disclosure by asking to be placed on our "do not disclose" list, as described in Section IV of this Notice ("Your Choices").

Other Third Parties

If you subscribe to our voice service, Comcast may disclose information about you to others in connection with features and services such as Caller ID, 911/E911, and directory services as follows:

- We may transmit your name and/or telephone number to be displayed on a Caller ID device unless you have elected to block such information. Please note that Caller ID blocking may not prevent the display of your name and/or telephone number when you dial certain business or emergency numbers, 911, 900 numbers, or toll-free 800 and similar numbers.
- We may provide your name, address, and telephone number to public safety authorities and their vendors for inclusion in E911 databases and records, inclusion in "reverse 911" systems, or to troubleshoot 911/E911 record errors.
- We may publish and distribute, or cause to be published and distributed, telephone directories in print, on the Internet, and on disks. Those telephone directories may include subscriber names, addresses, and telephone numbers, without restriction to their use.
- We may also make subscriber names, addresses, and telephone numbers available, or cause such subscriber information to be made available, through directory assistance operators.
- We may provide subscribers' names, addresses, and telephone numbers to unaffiliated directory publishers and directory assistance providers for their use in creating directories and offering directory assistance services.
- Once our subscribers' names, addresses, and telephone numbers appear in telephone directories or directory assistance, they may be sorted, packaged, repackaged, and made available again in different formats by anyone.

We take reasonable precautions to ensure that non-published and unlisted numbers are not included in our telephone directories or directory assistance services, but we cannot guarantee that errors will never occur.

If we (or our parent company) enter into a merger, acquisition, or sale of all or a portion of our assets, information about you and your subscription, including information that personally identifies you, will, in most instances, be one of the items transferred as part of the transaction. If this Notice will be changed as a result of such a transaction, you should refer below under "Changes to the Privacy Notice."

When Required by Law or To Protect Comcast and Others

There are times when we may be required by law to disclose information about you to third parties. These disclosures may be made with or without your consent, and with or without notice, in compliance with the terms of valid legal process such as a subpoena, court order, or search warrant.

If you subscribe to our Xfinity video service, Comcast may be required to disclose information that personally identifies you to a governmental entity in response to a court order. In this case, the Cable Act (defined below in Section V) requires that you be afforded the opportunity to appear and contest in a court proceeding relevant to the court order any claims made in support of the court order. At the proceeding, the Cable Act requires the governmental entity to offer clear and convincing evidence that the subject of the information is reasonably suspected of engaging in criminal activity and that the information sought would be material evidence in the case.

If you subscribe to the Xfinity Internet, voice, or home security services, Comcast may be required to disclose information that personally identifies you to a governmental entity in response to a subpoena, court order, or search warrant, depending on the type of information sought. We are usually prohibited from notifying you of any such disclosures by the terms of the legal process. We may also seek your consent to disclose information in response to a governmental entity's request when that governmental entity has not provided the required subpoena, court order, or search warrant.

A non-governmental entity, such as a civil litigant, can seek information that personally identifies you or your use of the Xfinity video, Internet, or voice services only pursuant to a court order and we are required by the Cable Act to notify you of such court order. If Comcast is required to disclose information that personally identifies you to a private third party in response to a civil court order, we will notify you prior to making such disclosure unless legally prohibited from doing so.

We may also disclose information that personally identifies you as permitted by law and without your consent when it is necessary to protect our customers, employees, or property; in emergency situations; or to enforce our rights under our terms of service and policies.

IV. Your Choices

In many instances, you have choices about how we communicate with you and how we use and share your information.

Opting Out of Certain Marketing Communications

For your convenience, we have created a customer preference center where you can manage:

- your account communications and notifications;
- your marketing calls, texts, and direct mail preferences;
- your preference for door-to-door sales calls;
- promotional or commercial emails Comcast may send to you; and
- targeted advertising for third-party products and services based on your interests.

To manage your preferences, please visit our customer preference center at <https://customer.xfinity.com/#/users/me/notifications>. Once you sign in, you can review your options, get more information about the types of marketing activities you can opt out of, and make your choices. If you change your mind, you can return any time to update your preferences.

We understand that sometimes you may want to speak to a Comcast representative who can assist you with these choices. You can contact Comcast at 1-800-XFINITY and ask us to put your name on our internal company "do not call," "do not mail," or "do not knock" list. You may also contact us at this number and ask to be placed on the "do not disclose" list, which will let us know that you do not want us to share your name and address with third parties, as described above.

If you prefer to contact Comcast in writing instead of by telephone, you may send a written request to the address listed below under "How Do I Contact Comcast?" Be sure to include your name and address, your Comcast account number, and a daytime telephone number where we can reach you. The person who is identified in our billing records as the customer should sign the written request. If you have a joint account, a request by one party will apply to the entire account; for multiple accounts, your notice must separately identify each account covered by the request. If you are writing to opt-out of marketing calls, you must state the phone numbers or addresses that you wish to be placed on the relevant lists.

Opting In to the Use of CPNI to Market Additional Products and Services to You

If you subscribe to Xfinity voice service, when you are interacting with one of our customer service representatives, such as on a call, in our offices, or during an online chat session, we may ask you for your oral consent to the use of your customer proprietary network information or "CPNI" for the purpose of reviewing your account and providing you with an offer for other products and services. If you provide consent, Comcast may use your CPNI only for the duration of that telephone call or discussion in order to offer you additional services. If you deny or restrict your approval for us to use your CPNI, you will suffer no effect, now or in the future, on how we provide any services to which you subscribe.

V. Your Rights under Federal and State Law

This Notice is designed to comply with federal and state law requirements, including California law, which is applicable to our customers located in California who are served by a cable television corporation.

The Cable Act and Personally Identifiable Information

This Privacy Notice is designed to comply with Section 631 of the federal Cable Communications Policy Act of 1984, as amended, (the "Cable Act"). The Cable Act permits Comcast to use the cable system to collect personally identifiable information about you. Personally identifiable information is information that identifies you specifically; it does not include de-identified, anonymous, aggregate, or other data that does not identify you. We may collect personally identifiable information when it is necessary to render cable services or other services to you and to detect unauthorized reception or use of the services. We may use the cable system to collect personally identifiable information about you for additional purposes with your prior written or electronic consent. The Cable Act also permits Comcast to disclose personally identifiable information if the disclosure is necessary to render, or conduct a legitimate business activity related to, the cable service or other services provided to you; required by law or legal process; or limited to your name and address, subject to your opt-out consent. The frequency of any disclosure of personally identifiable information varies in accordance with our business needs and activities as described in this Notice.

If you believe that you have been aggrieved by any act of ours in violation of the Cable Act or other applicable laws, we encourage you to contact us directly as described below in "How Do I Contact Comcast?" in order to resolve your question or concern. You may also enforce the limitations imposed on us by the Cable Act as applicable with respect to your personally identifiable information through a civil lawsuit seeking damages, attorneys' fees, and litigation costs. Other rights and remedies may be available to you under federal or other applicable laws as well.

This Privacy Notice neither supersedes, enhances, nor modifies any arbitration agreement to which you may be bound as a subscriber to one or more of the Services.

The Communications Act and CPNI

Section 222 of the Communications Act of 1934, as amended (the "Communications Act"), provides additional privacy protections for information about the quantity, technical configuration, type, destination, location, and amount of your use of telecommunications services, as well as Xfinity voice services, and the information about those services contained on your bill. This information is known as customer proprietary network information or "CPNI." CPNI does not include your name, address, and telephone number, which is defined by the Communications Act as "subscriber list information." However, that information is otherwise considered personally identifiable information.

If you are a customer of Xfinity voice service or another Service that is subject to these requirements, you have the right, and Comcast has a duty, under the Communications Act and other applicable laws, to protect the confidentiality of your CPNI. In addition, the FCC's rules provide additional privacy protections and choices regarding use and sharing that are specific to our voice services that we describe in this Notice.

VI. Accessing and Correcting Information

It is important that your account records contain accurate information. You may correct or update information about your account as described below. We will correct our records upon reasonable verification that the changes you request are proper.

If you have Internet access, you can view and change certain information yourself by going to www.xfinity.com and signing in with your Comcast username and password to access the My Account feature. If you are a home security customer, you can go to the subscriber portal at www.xfinity.com/xhportal. You may also call 1-800-XFINITY and speak to a customer service representative.

If you would like to examine your own personally identifiable information, you may do so at your local Comcast office upon reasonable prior notice to us and during our regular business hours. To do so, please contact us by mail at the address below or telephone at 1-800-XFINITY, giving us a reasonable period of time to locate and, if necessary, prepare the information for review, and to arrange an appointment. You will need to provide proper identification and you will only be permitted to examine the personally identifiable information in your account and no other account.

If you make an affirmative, written request for a copy of your Xfinity voice CPNI, we will disclose to you the relevant information we have at your account address of record, or to any person authorized by you, if we reasonably believe the request is valid. However, subscribers to our Xfinity voice services should be aware that we generally do not provide them with records of any inbound or outbound calls or other records that we do not furnish in the ordinary course of business (for example, as part of a bill) or which are available only from our archives, without valid legal process such as a court order. In addition, we cannot correct any errors in customer names, addresses, or telephone numbers appearing in, or omitted from, our or our vendors' directory lists until the next available publication of those directory lists. Further, we may have no control over information appearing in the directory lists or directory assistance services of directory publishers or directory assistance providers that are not owned by us.

Comcast reserves the right to charge you for the reasonable cost of retrieving and photocopying any documents that you request.

VII. Other Important Information

Protecting the Information We Collect

We follow industry-standard practices to secure the information we collect to prevent the unauthorized access, use, or disclosure of information about our customers. These security practices include technical, administrative, and physical safeguards, which may vary, depending on the type and sensitivity of the information. Although we take the responsibility of safeguarding your information seriously, we cannot guarantee that these practices will prevent every unauthorized attempt to access, use, or disclose your information.

Data Retention

Comcast maintains information that personally identifies you in our regular business records while you subscribe to one or more of the Services. We also maintain this information for a period of time after you no longer subscribe to a Service if the information is necessary for the purposes for which it was collected or to satisfy legal requirements. These purposes typically include business, legal, or tax purposes. If these purposes no longer apply, we will destroy, de-identify, or anonymize the information according to our internal policies and procedures.

Changes to the Privacy Notice

As required by the Cable Act, we will provide you with a copy of the current Privacy Notice at the time we enter into an agreement to provide any cable service or other service to you, and annually afterwards, or as otherwise permitted or required by law.

We may modify this Notice at any time. You can view the most current version of this Notice by going to <http://www.xfinity.com/Corporate/Customers/Policies/CustomPrivacy.html>. If we make material changes to this Privacy Notice, then we will provide you at least 30 days' notice and will also notify you by e-mail, direct mail, bill messaging, or other reasonable methods that we select. If you continue to use the service following notice of the changes, we will deem that to be your acceptance of and consent to the changes in the revised Privacy Notice. If we make material changes that will result in a new use, disclosure, or permission of access to previously collected information that personally identifies you, we will obtain your opt-in consent before implementing those specific changes.
