

License Commission regulation approved June 13, 1996 governing the requirement that applicants for licenses shall appear before the Lowell License Commission at regular meetings:

An individual, a corporate officer, a manager of record or any other person who will be directly responsible for the business, entertainment, or special event for which a license is requested shall be required to appear at a meeting of the Lowell License Commission when said licensing board is scheduled to review the application filed by or on behalf of an individual, corporation, partnership, club, or association. The License Commission Office may consult a majority of the board members if the purpose for the license would apply to a date and time prior to said meeting.

The attendance of such persons, upon notice from the Lowell License Commission, shall be required at such other of its meetings, as the Commission may determine.
