SECTION 1: PURPOSE & GOALS

The purpose of the Lowell CoC is to promote community-wide commitment to the goal of ending homelessness; attain and provide funding for efforts by nonprofit providers, in cooperation with Federal, State and local governments and private funders, to quickly rehouse homeless individuals and families while minimizing the trauma and dislocation caused to homeless individuals, families, and communities by homelessness; promote access to and effective utilization of mainstream programs by homeless individuals and families; and optimize self-sufficiency among individuals and families experiencing homelessness. In addition, the Lowell CoC is committed to avoiding duplication of efforts, leveraging resources, coordinating entry and assessments, and comprehensive planning.

Lowell’s CCAB/Steering Committee is responsible for the coordination of policies, strategies and activities toward ending homelessness. The CCAB/Steering Committee gathers and analyzes information in order to determine the local needs of people experiencing homelessness, implements strategic responses, educates and engages the community on issues of homelessness, provides advice and input on the operations of homeless housing and services programs, and measures CoC performance.

The Lowell CoC will focus on the following HUD goals: Creating a systemic response to homelessness strategically allocating resources, ending chronic homelessness, ending family homelessness, ending youth homelessness, ending veteran homelessness, using a Housing First and low barrier approach.

SECTION 2: RESPONSIBILITIES

The interim rule establishes three major duties for which the Continuum of Care is responsible: to operate the Continuum of Care, to designate an HMIS for the Continuum of Care, and to plan for the Continuum of Care.

A. COC PROGRAM OPERATING STANDARDS

1. Housing First Approach: The CoC has adopted a Housing First approach that centers on providing homeless people with housing as quickly as possible and then providing services as needed using a low barrier approach that emphasizes community integration, stable tenancy, recovery and individual choice.

2. Low Barrier Approach to Entry: The CoC will offer Lowell’s most vulnerable individuals and families experiencing homelessness immediate access to all available permanent supportive housing without unnecessary prerequisites including:

   a. Not rejecting applicants on the basis of poor or lack of credit or income, poor or lack of rental history, minor criminal convictions, or other factors that might indicate a lack of “housing readiness.”

   b. The use of blanket exclusionary criteria based on more serious criminal convictions. However, programs may consider such convictions on a case by case basis as necessary to ensure the safety of other residents and staff.

   c. Applying only those admission criteria that are required by funders. However, programs may also consider additional criteria on a case by case basis as necessary to ensure the safety of tenants and staff. Application of such additional criteria should be rare, and may include, for example, denial of an applicant who is a high risk registered sex offender by a project serving children, or denial of an applicant who has a history of domestic violence involving a current participant.
4. **CoC Order of Priority Policy:** The CoC have adopted the following excerpts from HUD Notice CPD-14-012: *Prioritizing Persons Experiencing Chronic Homelessness and Other Vulnerable Homeless Persons: Order of Priority in CoC Program-funded PSH Beds Dedicated to Persons Experiencing Chronic Homelessness and PSH Beds Prioritized for Occupancy by Persons Experiencing Chronic Homelessness (HUD Notice).*

The determination must not be based on a specific diagnosis or disability type, but only on the severity of needs of the individual.
   iv. In states where there is an alternate criteria used by state Medicaid departments to identify high-need, high cost beneficiaries, CoCs may use similar criteria to determine if a household has severe service needs instead of the criteria defined paragraphs i. and ii. above.
